AZARIAH ONYX

Senior Technical Writer | Information Development | AI Automation | Content Strategy

+91-814-808-8953 | onyxajr@gmail.com | Bengaluru, India | LinkedIn | Portfolio | GitHub

PROFESSIONAL SUMMARY

Senior Technical Writer and Information Developer with 8+ years of experience leading end-to-end documentation for enterprise SaaS. Skilled in AI-driven content automation, structured authoring, API and developer documentation, docs-as-code, UX writing, and information architecture. Mentor to technical writers, with experience establishing content standards, monitoring documentation quality, and partnering with Engineering, Product, and Design throughout Agile delivery.

CORE SKILLS

Structured Authoring & Tools: MadCap Flare | Adobe FrameMaker | Oxygen XML | DITA/XML | structured authoring | single sourcing

Technical & API Documentation: User guides | REST/GraphQL APIs | SDK references | tutorials | how-to guides | release notes | troubleshooting

AI Documentation Automation: Claude Code | agent skills | impact analysis | drafting | proofreading | source verification | CI quality gates

Documentation Strategy & Health: End-to-end lifecycle | zero-touch publishing vision | coverage | freshness | customer feedback | release readiness

Information Architecture & Standards: Style guides | templates | taxonomy | metadata | editorial governance | UX writing | localization-ready content

Mentoring & Agile Delivery: Writer mentoring | peer reviews | sprint planning | spec/design reviews | cross-functional leadership

PROFESSIONAL EXPERIENCE

Senior Technical Content Writer | Contentstack | Bengaluru, India | Mar 2025 - Aug 2026

- Owned end-to-end documentation strategy and lifecycle for enterprise SaaS products, from roadmap planning, content architecture, and authoring through SME review, publishing, release readiness, and maintenance.
- Created audience-focused user guides, API references, SDK/developer tutorials, how-to articles, release notes, troubleshooting documentation, and UX/in-product microcopy.
- Built and maintained style guides, reusable templates, terminology, taxonomy, metadata, and editorial standards; reviewed writers' work for technical accuracy, clarity, completeness, and usability.
- Developed reusable Claude Code AI agent skills for documentation impact analysis, source-grounded drafting, proofreading, evidence verification, Python QA, and GitHub Actions CI to advance zero-touch publishing.
- Established an AI-assisted Common Issues Library from verified support cases; assessed documentation coverage, freshness, customer feedback, and recurring issues to prioritize content improvements.
- Partnered with Engineering, Product, UX/Design, and Support in sprint planning, specification reviews, design critiques, and release discussions to identify documentation gaps early.
- Served as Scrum Master, coordinated sprint documentation deliverables, mentored information developers through onboarding, constructive reviews, and editorial coaching.

Technical Writer II | OpenText | Bengaluru, India | Dec 2022 - Mar 2025

- Owned DRA, GPA, and Sentinel documentation: administrator/user guides, REST API and developer content, installation/configuration, release notes, online help, and troubleshooting.
- Created reusable DITA XML concept, task, and reference topics in Oxygen XML Editor, applying structured authoring, content reuse, single sourcing, and editorial review standards.
- Collaborated with Engineering, Product, UX, Support, and global SMEs on specification reviews, technical validation, user journeys, API behavior, and clear enterprise security/administration workflows.
- Managed Git/SVN documentation changes, peer/SME reviews, publishing checks, and Agile release-aligned deliverables across enterprise software products.

Technical Writer | Sonovision Aetos / ORTEC Group | Bengaluru, India | Sep 2018 - Dec 2022

- Authored structured concept, task, and reference documentation for enterprise and industrial software using Arbortext Editor, Adobe FrameMaker, and XML/DITA.
- Built reusable content and procedural guides for varied technical audiences, applying information architecture, templates, terminology standards, and single-source publishing principles.

- Validated technical instructions with SMEs and mentored junior writers through peer review, constructive feedback, and improvements to readability and accuracy.

SELECTED DOCUMENTATION & AI INITIATIVES

- **AI Documentation Automation:** Developed reusable DocForge Skills for source-grounded documentation impact analysis, drafting, proofreading, and verification with configurable workflows, evidence traceability, Python quality checks, CI testing, and human approval.
- **AI Search Readiness & Content Retrievability:** Built EMETIVRA (GitHub), a live Markdown documentation and BM25 retrieval evaluation app with heading-aware chunking, before/after comparisons, and Precision@K, Recall@K, MRR, and nDCG metrics.
- **Common Issues Library:** Designed an Extractor–Writer–Verifier workflow to convert verified customer-support cases into reusable troubleshooting articles with source traceability and editorial quality checks.
- **Content Standards, UX & Localization:** Applied information architecture, content models, templates, terminology, UI guidance, and localization-ready writing principles to improve discoverability and content consistency.

TOOLS & TECHNOLOGIES

Authoring & Structured Content: MadCap Flare, Adobe FrameMaker, Oxygen XML Editor, Arbortext, DITA XML, Markdown, HTML, Contentstack CMS

Docs-as-Code & Delivery: Git/GitHub, SVN, Jira, Confluence, Docusaurus, MkDocs, GitHub Actions, CI/CD, Agile/Scrum, static site generators

API & Developer Tooling: REST, GraphQL, SDK references, Postman, JSON/XML, webhooks, OAuth/OIDC, JavaScript, Node.js

AI & Quality: Claude Code, agent skills, AI-assisted content automation, source verification, Python, BM25, retrieval evaluation, documentation coverage/freshness

EDUCATION & CERTIFICATIONS

B.Sc. Computer Science | Vinayaka Missions University

Certifications: API Technical Writing (Udemy) | Technical Writing with DITA XML (Udemy) | Project Leadership (PMI) | Google Cloud Foundations (LinkedIn)
